

This architectural section drawing illustrates the vertical structure of a building, including its foundation, ground floor, three upper floors, and a gabled roof. The drawing is annotated with the following details:

- Roof:** The roof peak is at an elevation of +20.670. The roof structure includes a central truss system.
- Floor Levels (N.P. = Nivel do Piso):**
 - 4. N.P.: +11.800
 - 3. N.P.: +7.900
 - 2. N.P.: +4.000
 - 1. N.P.: -1.700
- Height Dimensions (Right Side):**
 - From the roof peak to the 4th floor: 4432
 - From the 4th floor to the 3rd floor: 1190
 - From the 3rd floor to the 2nd floor: 2400
 - From the 2nd floor to the 1st floor: 1500
 - From the 1st floor to the ground level: 2400
 - From the ground level to the basement level: 1200
 - Total height from the 4th floor to the basement level: 22322
- Structural Details:**
 - The ground floor features a staircase and a small structure with a chimney.
 - The basement level includes a foundation and a small structure with a chimney.
 - The drawing shows various structural elements like columns, beams, and walls, with some areas hatched to indicate specific materials or construction details.
